Moir, I am in Ottawa. I know a briefing meeting has been set with the Minister on Nov 17th. To brief him for the House. In the meantime, if there is some immediate need you have in the interim I ask that you touch base with Bob Williams

Hi George,

Can you give me an update on the contacting of patients. Where are we and when will all patients be contacted? We need to ensure that the Minister can state all patients have been contacted when the House opens later this month.

Also, have you received the report from the Chief Pathologist at the BC Cancer Institute and the Chief Technologist at Mount Sinai. If yes, can you give me a quick update to reflect in the Minister's HOA note.

Thanks,

Moir
