RE: **Repeat ER & PR**

I am requesting the performance and interpretation of estrogen and progesterone receptor immunohistochemical stains using the LSAB procedure on the enclosed blocks. Each block is submitted in a plastic bag with demographic information and pathological interpretation. It would be appreciated if the paraffin blocks and stained ER and PR slides could be returned to my office at St. Clare's, as well as forwarding the spreadsheet containing the ER and PR interpretation to my E-mail address.

It would be greatly appreciated that these blocks are labelled as Grand Falls and Gander sites on the spreadsheet.

Sincerely yours,

Donald M. Cook, MD, FRCPC, FCAP
Clinical Chief, Laboratory Medicine Program
