Attachments: Update on ERpr.doc

Hi Dr. Williams,

I've heard back from Dr. Cook and Terry Gulliver re: the letter and the changes have been made. Both agree that it should come from you.

I was speaking to Deborah Thomas today and the Department of Health has been notified and is now involved. They would like a letter sent to each woman outlining the problem and the steps we are taking to address it. That draft letter will have to be seen by our lawyer first of course.

I guess we'll have to decide tomorrow or the next day re: advising the public?

Heather
