Subject: RE: A MESSAGE TO BREAST CANCER PATIENTS

Hi,

I've left several messages for her and asked her to page me before i sent her anything so I can discuss it with her....if I'm on the phone all the time calling patients and ask her to page me I don't know how more available I can be.....

Heather

Heather,

Can you follow up.

Thanks,
Bob

Hi Bob

Can you please advise me on the message that you are giving to patients who are being retested. We'd like to take a consistent approach. Tnx.

Ken

HI Ken,

Left another message for Heather today, this time I reached a person but they didn't sound too promising that I would be getting a call back.

We may have to go ahead and handle this on our own,
Heidi

Subject: RE: A MESSAGE TO BREAST CANCER PATIENTS
Importance: High

Hi Heidi,

Dr. Bob Williams called me late this afternoon and advised me of a release that they are planning for the weekend print media. He indicated that there may be some changes yet, so if this is the same document he is referring to there may be another iteration. I anticipate that this may be something that we want to add to our website when finalized. Could you pls confirm with Susan Bonnell what their final version looks like.

Dr. Williams also indicated to me that Eastern is about to start notifying all their patients (who are being retested) that testing is underway. For those who they have retesting results on, they will advise the patients of the result. Dr. Williams is asking that other regions contact all patients who have been retested. Could I obtain your help in working through this by contacting Heather Pridham (777-6126 or 6777; pager 570-9703) on my behalf to determine what message they will be giving their patients. Please share this feedback with Frank, who I will ask to develop a plan to begin contacting our patients.

I am at a family practice seminar at Marble Inn over the next 2 days and can be contacted by phone or e-mail. Tnx for the help.

Ken
