Dear Barry,

As per your request, please find enclosed the ERPR cases for the year 1999 as requested. I have included a list of patients as per previous year.

This concludes our search. You will note as always, that there are notes attached to each patients name and similar notes on the reports. Some of these cases had to be sent with different block numbers as some were not in our files and I suspect they are still in yours. To expedite the process of retesting, I selected another block containing tumor.

I have sent all reports. If there are other blocks required, please let me know.

I trust this is satisfactory.

  
Thanks.
