Susan,
The Minister doesn't need a briefing today but we would like to set up a briefing for him asap. I will advise you once I discuss with John Abbott and we can find a time.

Thanks,
Tansy

We have been trying to get herself on the phone. We've left her a couple of messages. We're attempting to set up the media briefing for the first week of December - just trying to line up all the players we need to do this.

Can you call me? I'm talking to Dr. Howell on the phone now and we'd like to know what the Minister would want. Would a verbal briefing be helpful? Despite what Chris says, we aren't in the position to give a detailed briefing this week. (rate of error, etc.)

In light of this request, can you please ask that a status report is sent to the Minister this week. Thanks
