Thanks Ken. I don't need to receive the list. Thanks for the follow up. Susan

Hi Bonnie,

I thought that the file may have been passed back to you for this follow-up. I'll ask Hellen to advise Susan of the list of those who are deceased.

We did not have any luck with making contact with those that you could not get a hold of. As well, I'll have Hellen send the file back to you for this piece of the work, so that everything remains together. Tnx very much.

Ken

Hi Ken,  
Apologies for delayed reply but away until day. In answer to the question re. clients/patients that may be deceased, there was a list I started when I was making the calls that noted any deceased clients/patients discovered. In addition, there were some clients/patients that had been unreachable after several calls and some that did not have up to date contact information. Unsure if these were reached. If so were they noted as deceased if discovered during the call.
