Forwarding on behalf of Patricia Pilgrim, COO - Cancer Care, Quality and Risk Management, Eastern Health

Sherry, Paula and Lisa,

As you have already heard from your CEO, the health authorities will be doing some further quality checks on two categories of patients in the ER\PR database, i.e.

1. Patients whose results were returned from Mount Sinai as DCIS. We have to ensure that the proper verification process occurred for each of these patients.
2. Patients whose results were communicated to them by physicians and there are several categories of them and we have to verify that indeed this communication did happen.

The reason we are doing these quality checks is because of some recent evidence that indicated some patients were missed. Dianne Smith will be getting us all together on a conference call to talk about this further and decide on our process.

Will be talking to you soon!

Pat
