Hi,

Glad you asked that, because I meant to tell you. A letter will be sent to the most responsible physician, copied to the others listed on the chart as well as the Grand Falls periperal clinic.

We had a question whether you (Dr. Alteen) would like a copy of the letter for the institution perspective or just the spreadsheet we provided...or something else. Could you have that discussion with larry and let me know? We're open to whatever you would like.

Also, in a couple of weeks, nanacy and I will be calling all the people who have been sent a letter to verify their receipt and that the patient has bene infomred.

Heather

Hi Heather,

Will attempt to do this for you asap. What is going to happen now to the ones you have paneled and treatment change is recommended such as to treat with Tamoxifin? Judy

Hi,

We finished Grand Falls on Saturday and I've attached the results. I sorted them by outcome and as you can see there are a few we need more information on....if you can get them to me before Saturday that would be great....we will be meeting on Thursday and starting Gander

Call me tomroorw if you want to run through them

Heather <<Grand Falls.xls>>
