## *Pathology Services Working Group*

---

July 25<sup>th</sup>, 2005

**Dr. Ken Jenkins**  
**VP Medical Services**  
**Western Regional Integrated**  
**Health Authority**  
**Chair ~ Service Coverage Committee**

Dear Service Coverage Committee Members:

Following is the final report of the Pathology Services Working Group which details our review and our recommendations for pathology services within Newfoundland and Labrador. Our deliberations were highly productive. The group was able to reach full agreement on all issues.

We believe this document provides both a well rounded overview and well reasoned recommendations. It is the express wish of the group that serious consideration is given to the recommendations as they are specified in the report. We firmly believe that these recommendations will provide the best possible results for all involved.

Thanks are expressed to the SCC and the PSLC for the opportunity given the group to provide a thorough review of pathology issues as they currently exist within the province.

Sincerest Regards,

Dr. Robert Williams  
VP Medical Services  
Eastern Regional Integrated  
Health Authority  
Chair ~ Pathology Services  
Working Group\*
