---

Hi Heather, looks good...

I also thought of these...

1) What if my results come back positive, what does this mean to me? What can I expect? Does this mean I received the incorrect treatment?

2) My family member has died, would /could her outcome have been different if she was actually positive?

...Pam

Hi,

I've attached the questions and some answers I came up with yesterday. Before I send them elsewhere look the over and let me know what needs to be added or deleted.....
