FYI. I guess these will come to the lab. Can someone let me know if they have been received and what their names are? Pat

 Subject: Consults from Western

Hi Pat,
 There are three cases ER/PR results not retested in 2005 because the patients were deceased at the time the request for samples was made by Eastern Health in mid 2005. Robert had indicated to Susan that the cases for retesting be sent as consults and directly to Mt. Sinai from Western. However, the pathologist wanted to follow the previous procedure put in place. A call was placed to Barry and he told them to send them to Eastern Health and they would send them along to Mt. Sinai as consults. As a direct result of that conversation, the Western region sent them for retesting on November 6, 2007 to Eastern Health for submission to Mt. Sinai as "consults".

Robert asked me to make you aware that the specimens were on their way to Eastern Health and should be forwarded to Mt. Sinai.

If you have any questions, please give me a call at 729-6977.

Thanks,
Deb
