Subject: From Heather Predham Re: Dr. Carter's Retesting Results

Hi all,

I have Dr. Carter's retesting results entered in the database and have summarized the results as attached.

I think I may be able to get the Tamoxifen prescribed by MCP # from Pharmacy. If I can, then I should be able to have that part completed for the morning. If not we will have to review individual charts and that will take longer to complete.

In the morning, I will bring whatever I have done in terms of the Tamoxifen information as well as the details for what is attached.

If there is anything else you want me to do, just page me

Heather
