Hi

I did it then but I couldn't get it before

Pam I tried to reply all on the email below

Heather

Hi

St pierre

I left a list of patient names with dianne but I think steve should run off a list as well so we can make sure they are the same

Dcis

Yes that is all we need there are several patients I can't confirm as they are not signed out in meditech

I will touch base with terry first thing in the morning to finish this off

Tested late

Wayne is getting this list isn't he

I haven't done anything about this as I can't determine this

Physician contact

Right now patients are being called and physician offices have been called

There are four patients that I need direction on though

I haven't figured out how to send this to pam as well but could copy this to her
I'm assuming that I won't be going to quality council tomorrow
I wasn't planning to

Anyway I have a feeling that we aren't at the end

Heather

Subject: Last few things

Hi Heather, it seems like the end is almost near with the "lists".....can we dare hope for this? I can only imagine how weary you are with this over the past two and a half years. I look forward to the day when I no longer have to ask for information on any more... However, there are a few things left to be done and I would like your advice on the following:

- . St. Pierre patients. Can you take off the list of those or do I get steve Greene to do it?
- . DCIS..I have to get that review complete. I just need an hour of yours ..and terry's?..time to complete this?
- . Patients tested late...this has to be done this week. We are saying anyone tested after October 31, 2005 would be in this group. Are you and terry the best to get this info from? Is any of this currently in the database?
- . Patients supposed to be contacted by physician...we should have this complete within the next day?

Seems like a lot but need to know your advice on how to best get this done. To me, seems like I need a couple of hours with you and terry in front of a computer.....please advise.Pat
