Hi,

Here are the two files.....

The Complete ER-PR are the results from Mt Sinai.....Sheet 1 is a complete listing of all the names. Sheet 2 are those that for some reason they haven't reported.

ER PR results.xls (2 MB)

The ER PR results is my working file. What I need to know is what names are on the workshhet named all retesting results but are not on Sheet 1 in the other file.....does that make sense?

If not, you know where I am
