Hi Ladies,

Small bit of feedback ---- ? use the words " it was decided to retest" rather than "it was necessary" and now, seeing Heather's signature from Q&RM -- just thinking whether or not we are the best dept. (? maybe Lab or Cancer Program) to sign off in writing .

Pam

Hi,

Agnes thinks she will be able to get the names and addresses to me by tomorrow.

I've drafted up a letter, look at it and see what you think.....this is for the confirmed negatives

Who else should see it before it goes?

Heather

Subject: list

Hi Agnes,

Thanks for this. I've attached a list of all the deceased patients in the Eastern Health region that I need the last known contact information for their next-of-kin.

As we discussed, I would appreciate this info asap as I would like to get the letters out as soon as I can before Christmas

Thanks

Heather
