ER/PR

Hi Pat,

I just wanted to give you an update as to where I am with the list of 32. I've attached the list as it is now and as you can see I have some questions.....which have been sent to the areas involved and I am now awaiting answers.

The only letter I haven't sent is to Western and I just wanted to confirm with you if I should send it to Dr. Jenkins or to Lisa Hoddinott?

As well, I was following up with Reza when he asked me about some other patients...the end result is that he will be hand delivering another list tomorrow.....

Heather
