Hi,

This is the status of that list from February 22, 2008

outstanding is:

- one lady who's DCIS....there was no answer yesterday and today the line has been busy all day
- one lady who's confirmed positive, she was not home this am and Sharon is going to call
- one lady from central that I have no contact information on. I've left a request for that with Sherry's secretary

Nancy, Sharon and I had a discussion about one lady who came back as No tumor. She was not retested and we feel we should not contact her.....I'm sure we will defer to your decision

Heather
