Subject: New searches for NLCHI
Importance: High

Hi Guys!

I met with Rezza and Christine at 0900 this morning, we focused on multiple searches to id patients from 2000 for ER/PR.

Search I	Used SNOMED, trigger BREAST16 ----Tallied 583 patients
Search II	Used WORD, trigger BREAST -----Tallied 847 patients
Search III	Used TUMOR REGISTRY, trigger TR----Tallied 2991 patients
Search IV	Used SNOMED/TR, trigger TR -----Tallied 194 patients
Search V	Used PROCEDURE, trigger ER/PR-----Tallied 339 patients

NLCHI has taken this information in the form of LIST SEARCH PARAMENTERS, no patient reports were printed today.

Questions!! I can be reached at 777-6514
 Barry
