Will do. I have a binder on ER/PR with all clippings so will get you a copy of that. Also will compile clippings on task force.

Not sure what you provide to Minister. At the outset, I would like to get everything on the ER/PR issue, particularly references to the inquiry and my assignment, and everything related to the task force (including print, radio, TV, etc). Can you go back to the beginning of yesterday on this and then we will start to work forward. Thanks.
