Subject: Re: Pathologists

Robert:

When I read this email earlier I misunderstood your inquiry to be when we would hear from Eastern Health about their review. On re-read I think you are asking about the pathologist's numbers for the ER/PR work. I have all that done but wanted to verify a couple of points with Cathi. For example I am not sure if one of the pathologists who also do infectious disease counts a 1 FTE other otherwise. I will check this with Cathi on Wednesday afternoon (the earliest I will see her) and then send you the spreadsheet data.

Hope that is OK

 Ed:

Just wondering how you are making out with pathologist info.

Robert
