Subject: FW: RE ER/PgR results on RS-[REDACTED] and RS-[REDACTED]

Hi Heather,
There maybe a transcription error in a result, you can check the charts from January and May to see what I mean. This may have to be brought up on Thursday. I have sent Dr. Mullen an E-mail asking verification of this.
Regards,
Dr. Cook

Subject: RE ER/PgR results on RS-[REDACTED] and RS-[REDACTED]

Hi Brendan,
Could you recheck the results on RS-[REDACTED] (01-SU-6140) [REDACTED] as the information we have in the excel chart received in January 2006 indicated a result of ER-50% and PR <1 as the value appears to be in ditto marks (" " ") in a blank space directly under her name along with the block XXIII, and the surgical # 01:SU6140, which indicated to us, that these results belonged to [REDACTED]. However in your recent chart (May 16, 2006) which we printed, we note that these results were those of [REDACTED] RS-[REDACTED] 01:SU1328, XXIII. I would appreciate verification of this.
Regards,
Don Cook
