Hi,

This last section has been changed as Ms. [REDACTED] is deceased

Heather

Subject: this morning's list

Hi Ladies,

As I understand it, this is the current plan

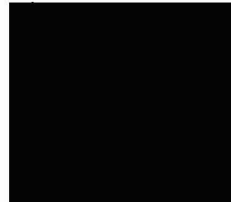

People to be informed that their sample had not previously been identified but is currently being retested:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.
- 7.
- 8.
- 9.
- 10.
- 11.

People that need to be called to verify they were previously contacted and told that they were confirmed negative:

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

With the problems with the later group of patient from St. Anthony, this would also include the patients who were confirmed negative from there:

- 7.
- 8.
- 9.
- 10.

11. [REDACTED]
12. [REDACTED]

Person currently being reviewed by Pathology and will require further action:

1. [REDACTED]

People requiring further review and contact

1. [REDACTED]

That's it from my knowledge and lists.

Heather
