I will look at the database and see what can be extracted. I am hoping that I can give you dates but the "why" for the delays may have to come from others unless it is in some of the comment fields in the database. Wayne

 Subject: Quality Report

Pam et al, I need to get a report of all patients that were identified after whatever point in time would be identified as being when we had originally identified all patients for retesting. Whatever date that is...Heather and Terry would probably be the best to tell us that. Then we need to have the reason for the delay in retesting ...when the retest was done...the resultant communication with the patient. We also need to get a report done for each board showing when patients were actually informed of results.

Wayne, is it possible for you to coordinate this review with Pam? Thanking you,  
 Pat
