Hi Pat,

We would appreciate it if you could send us the path report.

Thanks,
 Reza

Subject: RE: Question

Reza, The original dx was DCIS. The retest results came back from MS as DCIS. During the verification process of the MS results, there were questions about the original pathology and the case was sent to Dr. Carter..who sent on to Sunnybrook and the final diagnosis was that the original results was a pre-malignant papilloma. I guess you require all the path reports on this before you can enter this?? Pat

Hi Heather,

That is perfectly fine. Have a great long weekend.

Reza

Hi reza,

Sorry I missed that! I'm off today so I'll have to get that for you on Tuesday from Nash if that's ok with you
Heather

Subject: Question
Hi Heather,

In the tables that you/Pat sent us yesterday, there is a patient ([redacted] [id

██████████), under revised diagnosis table, whose original and revised diagnoses have been left blank. Could you please advise us of her original and revised diagnoses? Please let me know if you have any questions.

Thanks,
Reza
