1997-2204. ER negative, don't care about PR.ER/PR slides, controls and the h and E of that block, that block, report.  
I am looking at Histologic type, grade, internal controls, external controls, date of testing

Subject: QUESTION

I just wanted to check again the criteria on the breast cancers that they want us to send to St. John's:

1. Jan 1997 - December 2004.
2. ER AND PR NEGATIVE (Both negative).
3. Block, h/e slide, er/pr slides.
4. Report.
