Dear Barry,

As per your request, please find enclosed the ERPR negative cases for the year 2002. I have included list of patients, some of which I have kept slides for reasons outlined on the sheet, i.e. obvious EP +, but I have included the report if you need to review. I would be able to send slides later if needed, but based on the history that I see, they do not need repeats. If you determine otherwise, please let me know and I will forward ASAP.

Thanks,

Paul
