Subject: ERPA cases for Western

Hi Susan,

As per our telephone conversation, I would appreciate your help in retrieving the following data for Western Health concerning patients for repeat ERPR testing as outlined by Eastern Health.

We are required to sent all ER negative cases on primary breast lesions from May 1997 to March 31, 2004. We have been able to retrieve most from our Meditech system, however in the early years, we were on another pathology program which is not searchable. We require your help from May 1997 to include the years 1998 and 1999.

Please provide us with all patients with breast cancers diagnosed in that time frame by name and MCP. These are from all hospitals from our area, including Western Memorial, Stephenville, Port Aux Basques, Burgeo, Bonne Bay, and Port Saunders. This information was supplied to you as weekly "tumor registry reports."

You are aware of the urgency of this exercise. Our retrieval of cases will depend on the data you provide. I sincerely appreciate your help and if you have any questions, please call me.

Thanks,

Paul R. Neil
Director of Pathology and Laboratory Medicine
Western Regional Integrated Health Authority
709-637-5000 ext 5310
