Update on PR/ER

Hi Terry:

We have started to retrieve the ER/PR reports, slides blocks etc. We are unable to compile all this data and retrieval of slides ,blocks etc on our regular shifts so we had to take the initiative and do it on an overtime basis.

This overtime cost will be forwarded to HSC for reimbursement after this project has been completed.

We have received direction from our senior team that to expedite this process and to send a year at a time of possible instead of sending the complete 5 years as one shipment.

I hope this is satisfactory, I will try to keep you informed.

Thanks

Dennis Boone
