Hi Sharon

Coud you pls pass the consolidated list to me and I'll ask Hellen to trouble shoot the numbers that Bonnie was unable to get through to. Many thanks to you and Bonnie for the help here. Cheers.

Ken

Dr. Jenkins,
Please see Bonnie's message below re the calls regarding ER/PR. Still some clients unable to be contacted after a number of attempts and others without appropriate contact information. I have all the information in my office.
Please advise how you wish to proceed.

Have a great Christmas. Sharon

Hi Sharon,

As you probably already noted there were 15 Recalls still required after I finished calls December 14th. I have called these patients 2-5 x each. In addition, the Contact numbers that were updated still were unchanged from what was already provided. I recalled anyways and confirmed these are wrong #s. I am not sure what the plan is now but if you still require I make recalls please let me know. Maybe I can do a few hours after my Risk Management orientation next week.

I think the total # of patients involved in calls = 202 or 204.

Thanks,
Bonnie Walker

Also,

Would also like to take this opportunity to thank you for the opportunity to work in the AO position. I enjoyed the 6 month position and would have enjoyed staying with the role if it were permanent. You were great to work for. Thanks,

Bonnie
