I saw the same clip last night.. So we now know which patient is it.
Susan is doing a leadership lecture this morning until about 1100 hours.
She is in town so I will make sure that we connect after her session..

Susan,
Either call me when you are finished.
I will also leave a note with Karen and John that we need to connect
when you finish your lecture..

I found a quote from Yvonne yesterday where she described the person who had her disclosure this week as being from the west coast. As you may know, there was such a disclosure in Corner Brook on Monday. Therefore, it appears it is not the same person as you identified yesterday. It will be important to reconcile this carefully in the next public statement, coordinated with Western and with our report to the Commission.
