Subject: ER and PR receptors

Dear Kevin,
Both myself and Terry Gulliver want to talk to you about retesting some of our ER and PR receptors for the 2003 and 2004-5 years. We may want to retest 40 to 50 samples as a rough figure. Can you give me a call at 709-777-5482 as soon as possible.
Regards,
Don Cook

Left a message on phone as well.
