**Subject:** Priority for Retesting of Breast Cancer Patients

Good Day Bob and George,

I understand Bob is not available this week so I am including George in the message. George, you may want to put me on to someone else which is fine. I spoke to a person this morning who is concerned about her retesting and when it will be done. She was told the resting is being done in alphabetical order and is worried that it hasn't been prioritized. She is also concerned with a general lack of information from the front line staff at the cancer clinic.

She will be talking to the media on this to let you know. Can you tell me if there is any priority procedure in place for the retesting? I have left a message for George to phone me on this also. (cel is 727-6737) Peter
