Hi,

How are you? This is your friend up the hall. You know, the old one who can retire in another 7 months.

I had to talk to Nash about something on Monday, so I asked him "what about the latest er-pr group's results"?

He said he would have to check. he called today to say Mt.Siniai has not yet started to re-test our samples. They are on full workload, but now will try to find time to begin, asap. I think he said something about they will be doing them in batches of 5, & asked me to send him the names of the people who have been calling & he will ask to get those done first. So, that's what I'm doing.

best

wishes, N.
