---

Please get numbers from Terry.  
 Otherwise don't worry, we will deal with it on the call.

Oscar

HI,

No problem....We never looked at regional differences before...what would you like me to have ready for 10? I'll see what I can get.....

Also, Terry had a sheet done up with the numbers of tests by region on it.....there were some errors in the last one I received but he did up a final one for Janie Bussey.....do either of you have that or do you want me to get it from him?

Do you want to chat before ten?

Heather

I just got off confernece call with Minister Wiseman.

Issues:

1. Explanation of when/ why we have not provided ER-PR testing outside St. John's
2. Were there regional differences in results of retests
3. What is the volume of tests outside St.John's
4. Any concerns on quality in other labs

DM, CEO's, VP's and pathologists are invited.

Media is now requesting interviews in other regions.

I hope you can join in my office or on phone. Denise will be in touch with specifics

Oscar
