Subject: New List of Patients not Contacted

Hello everyone, I have been informed by Deb Gregory that tomorrow we will be presented with ANOTHER list of 45 patients who need contacting. She informs me that the list we got last week with the 35 plus 9 deceased = the 44 patients the Minister referred to in his Press Conference, was the first list and this consisted of patients who had no initial contact that they were ever retested. Now List #2 will be the remaining patients for which there is no record that they were ever contacted with their RESULTS. I asked how this could be happening now and she says it is because they are still finalizing the CONTACT piece of the database. The List #2 contains about 15 patients from Eastern Health.

I have asked Dianne, in my absence, to ensure that Heather gets the list and I will ask Dianne to ensure that contact people in each of the other RHA's receives a copy of their own patients. Heather, If you could follow up with Debbie and contact the other boards to ensure we we all get the same message and are clear about List #1 and List #2. Apparently we are the only ones to get these lists.....we are being given the task of following up with the other boards on this. If there is a need for clarification, Robert has volunteered to go on a conference call with all RHA's to clarify. I will leave this to you, Heather to determine if this is necessary, but it might not be a bad idea. BB me if you need me, I am in Ottawa and will be back on Friday. Pat
