Yes.. I will have Pat Pilgrim, Heather Predham, and Terry Gulliver with me. I wonder if there is a need to have Susan Bonnell our communication person as well as after we have determined the actual numbers etc, then we will need to talk about eh communication strategy. Your thought..

Louise:

Regarding a Thursday meeting on ER/PR, you will be coming over here for a 10:00am meeting on "owner board" issues. I suggest that we convene on ER/PR earlier, perhaps 8:30am. The objective is to review all the checking that has been done on the lists, and finalize our collective view on the number of extra re-tests and the number of people who may not have been contacted. We also need to finalize a communication approach/protocol with patients and with the public. Sounds like at least 90 minutes. Does this sound OK to you?

Robert
