	Ms. Gerry Rogers is heard	37 - 57	10	or a group, means that their reputations are a	at risk.
	Mr. Daniel Boone is heard	57 - 64	11	Consequently, the principles of natural justice	
	Certificate		12	require that due process safeguards be in place	ce.
	Key Word Index		13	Those safeguards will be observed by this Cor	nmission.
			14		
			15	The precise tasks of this Commission are se	t out
			16	in the Terms of Reference. Broadly speaking,	its
			17	purpose is to find out why there were a high r	number
			18	of different results when certain hormone reco	eptor
			19	tests done between 1997 and 2005 were rete	sted in
			20	2005 and 2006, and to consider what could be	e done to
			21	avoid similar occurrences in the future. In the	at
			22	sense, the mandate of the Commission is dire	cted, in
			23	part, to the past and, in part, to the future. I	am
			24	to examine the response of authorities when	the

Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and	
2 3 4 5 6 7 8 9 10 11	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria	2 3 4 5 6 7 8 9 10 11	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is	
2 3 4 5 6 7 8 9 10 11 12	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the	2 3 4 5 6 7 8 9 10 11 12	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to	
2 3 4 5 6 7 8 9 10 11 12 13	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through	2 3 4 5 6 7 8 9 10 11 12 13	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to make recommendations. All these matters of inquiry	
2 3 4 5 6 7 8 9 10 11 12 13 14	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through its department and ultimately through the regions,	2 3 4 5 6 7 8 9 10 11 12 13 14	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to make recommendations. All these matters of inquiry are ones which will involve Eastern Health in all	
2 3 4 5 6 7 8 9 10 11 12 13 14 15	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through its department and ultimately through the regions, has been so integral to be involved in this event and	2 3 4 5 6 7 8 9 10 11 12 13 14 15	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to make recommendations. All these matters of inquiry are ones which will involve Eastern Health in all aspects. Eastern Health	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through its department and ultimately through the regions, has been so integral to be involved in this event and continues to involved, it's submitted that it's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to make recommendations. All these matters of inquiry are ones which will involve Eastern Health in all aspects. Eastern Health THE COMMISSIONER:	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through its department and ultimately through the regions, has been so integral to be involved in this event and continues to involved, it's submitted that it's appropriate for the Province to be involved in both	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. Madam Commissioner, you've already referred to the Terms of Reference for this Inquiry which include an inquiry into the estrogen and progesterone receptor testing carried out in the Newfoundland and Labrador health care system between 1997 and 2005, the Inquiry into the responses of responsible authorities and the communications by them, the inquiry into whether the ER and PR and quality assurance now in place for that testing is reflective of current best practices and the power to make recommendations. All these matters of inquiry are ones which will involve Eastern Health in all aspects. Eastern Health THE COMMISSIONER: Mr. Simmons, just as a matter of clarification, if	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	be entitled to participate and to have standing, and that in so doing this would contribute to the inquiries goals - openness and fairness. I think it further follows that the Inquiry ultimately may draw conclusions about the activities and the decisions and the policies that were made at various levels of Government, and perhaps some of those findings may be adverse in nature and have an adverse impact upon those players. I would suggest that that alone would satisfy another of the criteria that's laid both in the Act and also in the Commission rules. So because the province, through its department and ultimately through the regions, has been so integral to be involved in this event and continues to involved, it's submitted that it's	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Regional Integrated Health Authority, more commonly known as Eastern Health, is for standing in both Parts I and Parts II. In the complex and technological world of health care today no one has all the answers and no one is always right. Constant improvement is the name of the game and the goal is always to be better. Eastern Health,	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	 process, treatment decisions and communication of information, may have been carried out by under the authority of other health authorities in the province, but Eastern Health has a role in the laboratory testing for all the samples from that time period. THE COMMISSIONER: So there are really, there are no there were no tests performed during the operative time frame which your client does not have in which your client doesn't have a part to play as it were. It may be greater or lesser but there's a part? MR. SIMMONS: That's correct, my lady. The part played by Eastern Health will vary depending on the time, where the samples originated from and other circumstances, but there is a part played by Eastern Health in, as far as we're aware, all of the testing carried out in the time period. And that is obviously a matter that's 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	It's also Eastern Health that continues to be responsible for ER/PR testing in this province. Eastern Health is confident that the practices and procedures that are in place today are the best available and that the public can have complete confidence in that testing, but this Commission must inquire into the adequacy of those practices and whether improvement is still possible. It is in Eastern Health's interest and in the interest of all members of the public that it serves to help the Commission in any way it can to satisfy that mandate. The final Term of Reference addresses the power of the Commission to make recommendations. In the complex and technological world of health care today no one has all the answers and no one is always right. Constant improvement is the name of the game and the goal is always to be better. Eastern Health, therefore, welcomes the opportunity to participate in	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	 process, treatment decisions and communication of information, may have been carried out by under the authority of other health authorities in the province, but Eastern Health has a role in the laboratory testing for all the samples from that time period. 1	Procedures stress that that is not an adversarial	1	unable to be here. He is in court today. You will
2	proceeding, and that interested parties are not	2	note from the record that a letter was sent in on
3	adversarial parties in the sense that lawyers are	3	September the 5th by Dan Simmons indicating that he
4	used to.	4	would be seeking, or that the Central Regional
5		5	Integrated Health Authority, the Western Regional
6	Eastern Health is aware that, if given standing,	6	Integrated Health Authority and the Labrador-Grenfell
7	there are rights of participation in the Inquiry but	7	Regional Integrated Health Authority would be seeking
8	also important obligations to participate in a way	8	standing, and that separate legal counsel would be
9	that gives priority to the objectives of the Inquiry	9	representing them and seeking that standing. We were
10	and not priority of those of interested parties.	10	contacted recently, and on September 14th Mr. Eaton
11		11	sent a letter of request to the Commission seeking
12	Eastern Health understands that the extent of its	12	standing and I'm here this morning on his behalf.
13	and other parties' participation may sometimes be	13	
14	limited, and that the prerogative of the Commissioner	14	Very briefly, I echo the remarks made by
15	is to decide on those limits. In particular, there	15	Mr. Simmons with respect to the reasons for standing
16	are matters arising out of these events that are to	16	with one exception, and that is that the Central,
17	be examined elsewhere and Eastern Health and others	17	Western and Labrador-Grenfell authorities were not
18	will have to respect that.	18	involved in the laboratory testing with respect to
19		19	those test samples that were gathered from the
20	Finally, Madam Commissioner, there are important	20	respective health authorities. So the reason for
21	positive aspects and opportunities in this story. In	21	seeking standing is that each of these health
22	many ways this re-testing program was an	22	authorities collected samples for testing on behalf
23	unprecedented process. It began entirely within	23	of their respective patients and the samples
24	Eastern Health driven by concerned and professional	24	originating at their health authorities were sent to
	Page - 21 -		Page - 23 -
1	staff who saw an opportunity to do good by finding	1	Eastern Health laboratories for testing. As I
2	patients who might benefit from a change in	2	understand it, the slides were then prepared by
3	treatment. Eastern Health hopes that in Part II, in	3	Eastern Health's laboratories and sent back to the
4	particular, this aspect can be explored for the	4	Central, Western and Labrador-Grenfell authorities.
5	benefit of its organization and for others who might	5	These slides were then read at the respective
6	in future have a similar opportunity. Thank you,	6	authority and determinations were made at the sites
7	Madam Commissioner.	7	with respect to whether the samples were positive or
8	THE COMMISSIONER:	8	negative for, receptor positive or negative. So the
9	It's quite clear to me that the Eastern Health	9	roles of Central, Western and Labrador-Grenfell
10	Integrated Health Authority should be granted	10	health authorities is somewhat similar to Eastern
11	standing in this case, and I grant standing in	11	except for the fact that they were not involved in
12	respect to both Parts I and II. Thank you,	12	the laboratory testing.
13	Mr. Simmons.	13	
14	MR. SIMMONS:	14	So for that reason, there is the application is
15	Thank you.	15	being made very much on the same grounds as being
16	THE COMMISSIONER:	16	made by Eastern Health Authority.
17	Next matter or next person?	17	THE COMMISSIONER:
18	THE CLERK:	18	Mr. O'Dea, how do you I have no difficulty seeing
19	Application No. 3, Central, Western and	19	the relationship into Part I. I'm just wondering how
20	Labrador-Grenfell Regional Integrated Health	20	you see your client's participation in Part II, that
20	Authorities please come forward to the podium.	20	is sort of the policy examination in the piece, as
22	MR. O'DEA:	21	being different from Eastern Health's, if at all?
23	Good morning, Madam Commissioner, my name is John	22	MR. O'DEA:
23 24	O'Dea and I am here on behalf of David Eaton who is	23	I have not had an opportunity to discuss this with
	18 sheets ELITE TRANSCR

1	the clients involved but I do not see that that is	1	Carter, Cook and Kwan. All of these physicians, I
2	entirely different except for the issue around	2	think is fair to say, served on the tumor panel which
3	testing. I would suspect that anything in that area	3	was the body that vetted the results from Mount Sinai
4	would not be within the purview of the Central,	4	and compared them with the original results from
5	Western or Labrador-Grenfell authorities. But I must	5	Eastern Health. Throughout the course of that
6	caution you that my instructions are not that	6	discussion and a previous meeting, it is apparent,
7	specific this morning because of the short time of	7	and I think it is obvious, that physicians play an
8	which we were given notice of appointment.	8	important facet in this Inquiry from the very
9	THE COMMISSIONER:	9	beginning of the program in 1997 forward, even to the
10	Okay. Anything else to add?	10	point of dissemination of information following the
11	MR. O'DEA:	11	review, and in that regard we believe, under the
12	Not at this time.	12	provisions of the Terms of Reference, physicians have
13	THE COMMISSIONER:	13	an interest that needs to be addressed and can offer
14	Thank you, Mr. O'Dea.	14	information to the Inquiry that would be useful to
15	MR. O'DEA:	15	the Inquiry and to the public generally, and
16	Thank you.	16	accordingly, have asked for standing in both Part I
17	THE COMMISSIONER:	17	and Part II.
18	Mr. O'Dea, I'll reserve on this application until I	18	
19	have had an opportunity to consider the matter	19	I would add some additional comments. As the
20 21	further, particularly in respect of Part II.	20 21	investigation moves forward is it likely that other
21	MR. O'DEA:	21	physicians will be identified? And I've had some
22	Thank you. THE COMMISSIONER:	22	discussions with Commission Counsel in that regard, and what I would propose is as those physicians are
23	You'll be notified in writing. Thank you. Next	23	identified that Commission Counsel notify me of the
	Page - 25 -		Page - 27 -
1	application.	1	identities of those individuals, I will ensure that
2	THE CLERK:	2	those individuals are placed in my hand, and then I
3	Application No. 4, physicians Dr. Kara Laing et al.,	3	would ask this morning, potentially, for the Inquiry
4	please come forward.	4	to grant me leave for additional additions of
5	MR. BROWNE:	5	physicians' names for standing as the matter moves
6	Good morning, Madam Commissioner, Peter Browne on	6	forward.
7	behalf of Drs. Kara Laing et al.	7	
8	THE COMMISSIONER:	8	Finally, with regard to Part II, given the nature
9	Mr. Browne, you walk faster than my little mouse	9	of the focus being the policy aspect of it and the
10	moves here, so could you just give me a moment to	10	important aspect of "best practice" and so on, I do
11	pull up your application.	11	believe physicians, both pathologists and
12	MR. BROWNE:	12	oncologists, who have had a major role in this review
12 13	MR. BROWNE: It's probably all that running I do, Madam Justice.	12 13	
			oncologists, who have had a major role in this review
13	It's probably all that running I do, Madam Justice.	13	oncologists, who have had a major role in this review will have the ability to offer some information that
13 14	It's probably all that running I do, Madam Justice. THE COMMISSIONER:	13 14	oncologists, who have had a major role in this review will have the ability to offer some information that would be of some benefit to the Inquiry.
13 14 15	It's probably all that running I do, Madam Justice. THE COMMISSIONER: Yes, maybe I should have said you run faster than my	13 14 15	oncologists, who have had a major role in this review will have the ability to offer some information that would be of some benefit to the Inquiry. THE COMMISSIONER:
13 14 15 16	It's probably all that running I do, Madam Justice. THE COMMISSIONER: Yes, maybe I should have said you run faster than my mouse moves, but I will be right with you, I think.	13 14 15 16	oncologists, who have had a major role in this review will have the ability to offer some information that would be of some benefit to the Inquiry. THE COMMISSIONER: I agree, actually, in respect of the point you make
13 14 15 16 17	It's probably all that running I do, Madam Justice. THE COMMISSIONER: Yes, maybe I should have said you run faster than my mouse moves, but I will be right with you, I think. This is a learning process for me as well, so. Okay.	13 14 15 16 17	oncologists, who have had a major role in this review will have the ability to offer some information that would be of some benefit to the Inquiry. THE COMMISSIONER: I agree, actually, in respect of the point you make in respect to Part II. As to Part I, the persons who
13 14 15 16 17 18	It's probably all that running I do, Madam Justice. THE COMMISSIONER: Yes, maybe I should have said you run faster than my mouse moves, but I will be right with you, I think. 1	your consideration on that subject.	1	actually is almost more like a representative but not
2		2	the actual lawyer who represents my clients.
3	THE COMMISSIONER:	3	THE COMMISSIONER:
4	Our current estimate is that, you know, it will be at	4	Well my next question was just in terms of what do
5	least January, February and a portion of March.	5	you bring to the table that is not being brought to
6	MR. ROGERS:	6	the table by the presence of Mr. Crosbie?
7	Okay, okay. The other interesting thing which is	7	MR. ROGERS:
8	arising, one of my clients, who is also my sister,	8	The difference?
9	Ms. Gerry Rogers, is going to ask for standing. I	9	THE COMMISSIONER:
10	would like to endorse her application, my lady. I do	10	In terms of the representation of persons who may
11	that because even though she is a client of mine, in	11	have been affected.
12	some way or another she's become somewhat of a focal	12	MR. ROGERS:
13	point for many of the victims or, I should say,	13	Yeah. There is no doubt that I see that there might
14	patients of this Inquiry, and I think that she would	14	be some overlap; however, I think that you would be
15	be a very good voice and a force in the sense of	15	able to, if you felt that the question was becoming
16	acting on their behalf in some manner.	16	duplicitous, that you would be able to say, well,
17		17	that question had already been asked and so on. And
18	There was also question as to whether or not	18	the other thing I find is that when I look around the
19	perhaps I should be making a joint application with	19	room here, these are very good qualified counsel and
20	other counsel who have similar clients and similar	20	I actually feel very good about that, and that leads
21	interests. I spoke with Mr. Crosbie on this matter	21	me to believe that this Inquiry is going to be very
22	last week and it was determined that the logistics	22	successful in its goals. And I think the added bonus
23	would not make it possible from his standpoint. I	23	that I might be able to bring is my past experience
24	mean I'm very flexible in that regard but he felt it	24	with another large inquiry that happened here a
	Page - 33 -		Page - 35 -
1	wouldn't work from his standpoint. So if there's any	1	number of years ago with the Mount Cashel Inquiry.
2	wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for	2	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the
2 3	wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I	2 3	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and
2	wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further	2 3 4	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in
2 3 4 5	wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions.	2 3 4 5	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry.
2 3 4 5 6	wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER:	2 3 4 5 6	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER:
2 3 4 5 6 7	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are 	2 3 4 5 6 7	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application
2 3 4 5 6 7 8	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which 	2 3 4 5 6 7 8	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be
2 3 4 5 6 7 8 9	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application 	2 3 4 5 6 7 8 9	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in
2 3 4 5 6 7 8 9 10	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in 	2 3 4 5 6 7 8 9 10	number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have
2 3 4 5 6 7 8 9 10 11	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would 	2 3 4 5 6 7 8 9 10 11	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said?
2 3 4 5 6 7 8 9 10 11 12	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would be among that group as well? 	2 3 4 5 6 7 8 9 10 11 12	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said? MR. ROGERS:
2 3 4 5 6 7 8 9 10 11 12 13	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would be among that group as well? MR. ROGERS: 	2 3 4 5 6 7 8 9 10 11 12 13	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said? MR. ROGERS: Well ideally it's for myself, my lady. I would be
2 3 4 5 6 7 8 9 10 11 12 13 14	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would be among that group as well? MR. ROGERS: Yeah. Well what happens, my lady, and the class 	2 3 4 5 6 7 8 9 10 11 12 13 14	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said? MR. ROGERS: Well ideally it's for myself, my lady. I would be the main person. I only say and I say Rogers
2 3 4 5 6 7 8 9 10 11 12 13 14 15	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would be among that group as well? MR. ROGERS: Yeah. Well what happens, my lady, and the class action, my experience with them across the country 	2 3 4 5 6 7 8 9 10 11 12 13 14 15	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said? MR. ROGERS: Well ideally it's for myself, my lady. I would be the main person. I only say and I say Rogers Bussey simply because that is my firm, but I would be
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. So I suppose that's all I have to say now, my lady, subject to any further questions. THE COMMISSIONER: On that point, do I take it that your clients are part of the group included in the class action which Mr. Crosbie is involved in? Because his application is on behalf of really the group that is involved in the class action. So do I take it your clients would be among that group as well? MR. ROGERS: Yeah. Well what happens, my lady, and the class action, my experience with them across the country for different subjects, is that although there might 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 number of years ago with the Mount Cashel Inquiry. So perhaps in some way one of the goals that the Inquiry is trying to do is be very successful and bring out information, and maybe my experience in that way might also be able to assist this Inquiry. THE COMMISSIONER: And the other point that raises from the application that you have filed, as I read it you seem to be applying really for your firm or yourself and in addition to applying for your clients. Do I have that wrong? Have I misinterpreted what you said? MR. ROGERS: Well ideally it's for myself, my lady. I would be the main person. I only say and I say Rogers Bussey simply because that is my firm, but I would be the counsel that would be attending. If I could not,
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 wouldn't work from his standpoint. So if there's any question in that regard I suppose you can ask him for his further explanation. 1	saying to myself is Mr. Rogers seeking to be here	1	THE COMMISSIONER:
2	because of what he brings to the table or his own	2	Good morning, Ms. Rogers.
3	interests, or is he seeking to be here on behalf of	3	MS. ROGERS:
4	those of his clients who have been affected by the	4	Good morning, Commissioner Cameron. My name is Gerry
5	testing?	5	Rogers. First, I would like to thank the Province of
6	MR. ROGERS:	6	Newfoundland and Labrador for establishing this
7	Most definitely, my main purpose is to represent my	7	Inquiry, and I would like to thank you, Madam Justice
8	eight clients, without a doubt. I only suggest that	8	Cameron, for accepting the role of Commissioner for
9	my experience in other types of inquiries could be an	9	this very important task. And I also would like to
10	added bonus, my lady.	10	thank the team who has agreed to work with Madam
11	THE COMMISSIONER:	11	Justice Cameron on this Inquiry. Thank you.
12	All right then. Anything else you want to add?	12	
13	MR. ROGERS:	13	In July 19, 1999, I was diagnosed with
14	I'm sorry?	14	Infiltrating Ductal Carcinoma of the left breast. My
15	THE COMMISSIONER:	15	pathology indicated that the tumor was 2.5
16	Anything else you wish to add?	16	centimeters. That four of the 16 lymph nodes were
17	MR. ROGERS:	17	taken had cancer in them, and that the hormone
18	Nothing to add, my lady.	18	receptor status was estrogen negative and
19	THE COMMISSIONER:	19	progesterone positive for 30 percent. I was staged
20	And do I take it you do not wish to add anything,	20	at 2B. I under went an mastectomy followed by six
21	further information regarding the funding then?	21	months of chemotherapy and five weeks of radiation
22	MR. ROGERS:	22	therapy. Following this, I did not take Tamoxifen
23	No, not at this point, my lady.	23	because I was told I was estrogen negative.

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	through a letter. I finally spoke with my oncologist several months later and then finally, when all the retests were in, I met with my oncologist again who told me that my pathology had changed and my hormone receptor status was now estrogen positive. That was almost seven years after my initial diagnosis. I am one of the lucky ones. I am well and I am healthy. I was somewhat philosophical about the whole issue for a while but became very alarmed after reading a number of memos from Dr. G. Ejeckam, a counseling pathologist engaged by Eastern Health in early 2003, to address some of the problems evident regarding the hormone receptor testing and, in particular, immuno-histochemistry and pathology labs in Eastern Health will include excerpts from some of his memos following.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	spell disaster. Strong words for a scientist. He then goes on to say, "diagnosis based on inappropriate immuno stain will surely jeopardize patient care and may even expose the Health Sciences Corporation of St. John's to litigation". How was it that re-testing was not done at that time? Why were I and every other woman with breast cancer not notified then that there could be a problem with our pathology? Why was no action taken? That was an extra two years that women could have been put on the proper treatment. If action had been taken could lives then have been saved or prolonged? I have no technical expertise and perhaps it is not that simple. Perhaps it is not that simple. Perhaps it would not have made a difference. Perhaps there was no clear indication at that time that re-testing should have been done, but I need to know and the women of this province need to understand and know

3	by this were adults and we needed to get clear,	3	THE COMMISSIONER:
4	accessible, reliable information from Eastern Health	4	Now, Ms. Rogers, how do you see your role were you to
5	about what was going on. In Part II these are some	5	be granted standing? This is going to be a long
6	of the questions I would like answered: Why did we	6	hearing. Of necessity, we have determined, just
7	only find out about a health care problem directly	7	given the volume of people who must be asked
8	affecting us through the media and not through our	8	questions, the volumes of documents that have to be
9	health care providers? Why and how was a decision	9	examined, so as I've already indicated I think there
10	made to not contact every patient individually to	10	are going to be a fair number of people in this room
11	notify us about the problem once it was made public	11	for the winter as it were. I'm just wondering if
12	by the media? Why did a health care issue become a	12	you
13	legal one? What is being done to establish a forward	13	MS. ROGERS:
14	looking and responsive regulatory environment that	14	My condolences to you.
15	will ensure best practices in this area? What is	15	THE COMMISSIONER:
16	being done to ensure that the people of Newfoundland	16	But do you see, if you're granted standing, wanting
17	and Labrador will have the same access to the best	17	to be here with that role, in the sort of traditional
18	care as citizens across the whole country? What will	18	lawyer's role for two and a half months?
19	Eastern Health do to enhance transparency, openness	19	MS. ROGERS:
20	and accountability to strengthen public trust? What	20	Absolutely not, Madam Commissioner.
21	will Eastern Health do to help the public feel	21	THE COMMISSIONER:
22	confidence in our health care system once again?	22	I'm listening to you, I'm just wondering if you, what
23		23	you really want to do is to ensure I recognize
	In conclusion, as a citizen I value our health	24	you're making a plea that certain things be examined
24	III conclusion, as a citizen i value our neattri	24	you're making a plea that certain things be examined.

1	MS. ROGERS:	1		the public also can make submissions in writing. So
2	No, I believe I have two primary I'm not so sure I	2		whether you have standing or not in respect of Part
3	even want standing, and God forbid, the last thing	3		II you would be in a position to make submissions on
4	I'd want to do is to be stuck in this room all	4		the issues that relate to Part II. Those can
5	winter. I really you do really do have my	5		that's clearly indicated in our Rules of Procedure
6	condolences, and I know that that's going to be a	6		and Practice. So that's another avenue that's open
7	real difficult job.	7		to people who are not necessarily granted standing.
8	THE COMMISSIONER:	8	MS.	ROGERS:
9	Well that's what I'm trying to explore with you.	9		And then for the issue of exploring what happened
10	MS. ROGERS:	10		after Dr. Ejeckam's consultation and what happened,
11	Yes, yeah.	11		how can we get those kinds of questions answered?
12	THE COMMISSIONER:	12	THE	COMMISSIONER:
13	Is whether you really want to be here all winter.	13		Well Commission Counsel's job is to place before the
14	MS. ROGERS:	14		Commission the full picture of what is important to
15	No, I don't.	15		meet to enable me to and effectively deal with all
16	THE COMMISSIONER:	16		of the Terms of Reference. So that not only a
17	But let me say, that, well, part of the role of	17		citizen but I would expect lawyers who have been
18	counsel here is to be open to people like you and to	18		granted standing for other parties may have
19	hear from you as to what you think is important on	19		conversations with our counsel about the nature of
20	terms of the questioning of the witnesses. So that	20		the evidence that can be brought out from a
21	I'm wondering if standing is what you really want or	21		particular witness. The advantage of having standing
22	there's something, another way of participating. I'm	22		is if at the end of the examination by Commission
23	not suggesting that you not participate, I'm just	23		Counsel there are still questions which one or the

1	direct communication rather than just simply through	1	of Canada. And for the sake of brevity, if it please
2	third party communication.	2	the Commission I will refer to it by its acronym by
3	THE COMMISSIONER:	3	which it's normally is referred to is HIROC,
4	Yes, okay, thank you.	4	H-I-R-O-C.
5	MS. ROGERS:	5	THE COMMISSIONER:
6	Thank you.	6	Yes.
7	THE COMMISSIONER:	7	MR. BOONE:
8	Anything else you wish to add?	8	HIROC, Madam Commissioner, is an insurance reciprocal
9	MS. ROGERS:	9	exchange. It operates on a subscription and a
10	Thank you, and good luck.	10	not-for-profit basis. It has, at present it has
11	THE COMMISSIONER:	11	about 500 health care facilities as members and
12	Thank you very much now. I'm going to reserve on	12	subscribers in provinces across Canada. Through its
13	your application.	13	programs it provides, among other things, a program
14	MS. ROGERS:	14	of liability insurance. At the material times under
15	I even wonder if I should withdraw my application for	15	which for which the issues that the Commission
16	standing so that you don't have to deny me?	16	will be examined has developed, HIROC was the
17	THE COMMISSIONER:	17	liability insurance provider both for the Health Care
18	Well why don't you think about that for the next	18	Corporation of St. John's and its successor Eastern
19	couple of days?	19	Health. As a consequence, HIROC is responsible to
20	MS. ROGERS:	20	defend and indemnify both the Health Care Corporation
21	Okay.	21	of St. John's and now Eastern Health in respect of
22	THE COMMISSIONER:	22	civil actions for damages that have been brought and
23	There is another day which we're dealing with	23	are brought now before the courts of Newfoundland
24	applications, that's on Monday. And if by Monday you	24	with respect to the issues which are also under
	Page - 57 -		Page - 59 -
1	conclude that there are other ways to participate and	1	consideration in the Inquiry. The issues which are
2	you'd prefer to do it that way, then you can let our	2	in consideration in the civil actions put in issue by
3	staff now and they'll communicate that to me. All	3	the pleadings are very much the same issues which
4	right?	4	will be considered pursuant to the Terms of Reference
5	MS. ROGERS:	5	of the Inquiry. And as a consequence, HIROC takes
6	Thank you.	6	the position that with respect to Part I it is a
7	THE COMMISSIONER:	7	person whose interest may be affected, adversely
8	Thank you very much. Now, the next applicant.	8	affected by the findings of the Commission.
9	THE CLERK:	9	THE COMMISSIONER:
10	Application No. 7, Health Care Insurance Reciprocal	10	Well surely it's the findings of the judge that
11	of Canada, please come forward.	11	adversely affects your (inaudible).
12	THE COMMISSIONER:	12	MR. BOONE:
13	Good morning, would you just once again give me a	13	That could be. That could be, my lady, but if we
14	moment to catch up with you. You didn't have far	14	look at the issues they're largely coincident with
15	enough to walk obviously. I'm obviously trying my	15	the issues in the civil action. A lot of what will
16	very best to become proficient with dealing with	16	happen here will just by nature of what will
17	these things via the computer. This is practice for	17	happen in this proceeding will find its way into the
18	next January but I'm not quick enough yet. Here we	18	civil action. A lot of the evidence that we have
19	go. Now, I do have your application before me.	19	brought here will also be evidence in the civil
20	Thank you. Yes, could you for the record please	20	action. The issues are very much similar because the
21	identify yourself, Mr. Boone?	21	issues here go beyond, for instance, according to the
22	MR. BOONE:	22	Terms of Reference of the Commission, beyond findings
23	Yes, good morning, Madam Commissioner, I'm Dan Boone	23	of fact. They get into questions such as whether or
24	and I represent the Health Care Insurance Reciprocal	24	not the practices of Eastern Health at the relevant

1	time were reasonable and appropriate, which is very	1	specter of having to come in and seek standing
2	much coincident with the question as to whether or	2	because something has occurred within the Commission
3	not Eastern Health met the standard of care which	3	which could adversely affect our interest and nobody
4	will be at issue in the civil proceeding. As a	4	is seeking to protect those interests in a way that
5	consequence, the thing, the findings of fact in the	5	we would think would be coincident with what we would
6	conclusions and the inference from those facts that	6	want to do. And as a consequence we will be willing
7	the Commission will draw pursuant to its Terms of	7	to take whatever restrictions or limitations that the
8	Reference will very much be the issues which will be	8	Commission wished to put on us, either in advance or
9	always in play in the civil actions.	9	ad hoc, in terms of what evidence we're able to
10		10	present, what questions we're able to ask. And we
11	Now with all that said, and I think it's in our	11	also will commit that we will work in cooperation
12	submission, at least, it is clear that our interest	12	with Mr. Simmons to the greatest degree possible to
13	may be adversely affected by the findings of fact	13	ensure that there is no duplication. And we won't
14	made here. Eastern or sorry, HIROC recognizes	14	ask questions that nibble or quibble about things
15	that the Commission has to control its own process.	15	that perhaps are not particularly important to the
16	It is going to be very interested in the efficiency	16	Terms of Reference of the Commission but may be
17	of its process and is not going to want any kind of	17	important to us.
18	duplication of effort or anything of that nature.	18	
19	Our interest	19	So although in fact at this particular time I
20	THE COMMISSIONER:	20	can't anticipate and my client can't anticipate where
21	Well that's my concern. When I'm reading the	21	its interest might diverge with the interest of
22	material which you've filed, frankly it seems to me	22	others before the Commission already, that could
23	that in respect of Part II your client plays a role	23	occur, and because it could occur we would seek to
24	and can very much contribute to the work of the	24	have standing and with the commitment that we will

Sep	tember 19, 2007 Commission of Inquiry on I
	Page - 64 -
1	THE COMMISSIONER:
2	Yes. Well I think, as I've already indicated, I am
3	quite convinced that there is a benefit to having
4	your organization here in respect of Part II, but I'm
5	going to reserve on the issue because I want to think
6	a little further about the duplication problem. So I
7	reserve in respect of standing for your client. You
8	will hear from us in writing.
9	MR. BOONE:
10	Well thank you, Madam Commissioner. Thank you.
11	THE COMMISSIONER:
12	Thank you, Mr. Boone. That's it?
13	THE CLERK:
14	That's it.
15	THE COMMISSIONER:
16	Those are the applications for today. We will
17	continue with, I think, three other applications on
18	Monday of next week. And for those where there have
19	been a reservation of the question, you will hear
20	from us in writing in due course. Thank you.
